Software Developer/Engineer

I am a highly skilled software Developer with amazing experience in web development using diverse features and techniques to achieve the best, coupled with the latest trends of design as a mid-level developer.

I deploy a full range of communication, leadership, and technical skills when working on projects collectively or independently

I have extensive knowledge of **HTML, JavaScript, SQL, PYTHON, Node, React, React Native, and NOSQL**. Combined with my communication and problem-solving skills, I think I would be an excellent candidate for any IT role

In my previous role as a Mid-level Developer, I designed and implemented websites for a variety of clients. In my latest project, I redesigned a website and made app modifications for an e-hailing company. I have developed strong communication and teamwork skills as well as innovative and strategic thinking skills.

EXPERIENCE
